## ACME TOOLS OF BISMARCK & MINOT

One of our long term supporters of the DCMT is well known in the region for having the very best tools for hard working professionals like all the pit crews from the Tour. Acme has the best brands like Milwaukee, DeWalt, Makita, Bosch, Toro, Honda, Jet, Ridgid and many, many more. They will be awarding two Milwaukee cordless ½" impact wrenches that will be given to one drivers from each of the two divisions we race each night during the Tour. These impact wrenches and the new cordless rivet guns have become "must have" tools in the pits.

Acme also rents equipment to do-it-yourselfers and contractors. They sell lawn and garden power equipment, trailers, shop equipment, and a huge variety of hand tools and accessories for almost any job you might have. Their web sites are second to none to research the brand or product, and you want to check the "Hot Smokin' Deal" feature to get great prices. Their people are extremely knowledgeable and most often they will show you how to use that tool you've always wanted. Ladies, want to get your special guy the tool he's always wanted? Acme Tools will have it in stock for the birthday gift he will never forget!

*Two lucky drivers are going to win this Milwaukee Cordless ½" Impact Wrench from Acme Tools*
